

North Montco Technical Career Center

Name: _____ Session: _____ Date: _____

Outline For Chapter Number and Title: _____

I. Main/General Topic: _____

1. Sub-heading: _____

1. Points made: _____

2. Points made: _____

3. Points made: _____

4. Points made: _____

2. Sub-heading: _____

1. Points made: _____

2. Points made: _____

3. Points made: _____

4. Points made: _____

3. Sub-heading: _____

1. Points made: _____

2. Points made: _____

3. Points made: _____

4. Points made: _____

4. Sub-heading: _____

1. Points made: _____

2. Points made: _____

3. Points made: _____

Example from Chapter 1: I. General Heading: *The Automobile*

Sub-title: **Electrical System**; Consists of several smaller circuits designed to perform specific functions

1. **Ignition System**; Produces extremely high voltage surges across the spark plug to burn the air fuel mixture in the combustion chamber
2. **Starting System**; The battery and started motor crank the engine until it can run on its own
3. **Charging System**; Replaces the electrical energy drawn from the battery when starting the engine
4. **Lighting System**; Components that operate the vehicle's exterior and interior lights (bulbs)
